

Charging as a Service (CaaS)

Enel X Way's Charging-as-a-service (CaaS) offers flexible solutions for various EV charging projects. Whether you are installing EV chargers at the workplace, multi-family, public, or for fleet usage, Enel X Way has the right option for you.

All the available options are comprehensive, turn-key solutions that provide electric vehicle supply equipment (EVSE), software, installation, and maintenance for a monthly fee with flexible terms. Choose the option that best suits your business and goals alongside Enel X Way's ongoing support throughout the term.
