COMMERCIAL CHARGING

## Powerful, flexible & intuitive smart grid EV charging

Powering all commercial JuiceBox charging stations, JuiceNet Enterprise delivers the financial savings and flexibility you need to efficiently manage your EV charging operations. It's the perfect solution for apartment buildings, offices, shopping malls, universities, event venues, garages, and more.

Whether your system is just getting started or you're already powering an entire fleet of vehicles, JuiceNet Enterprise is designed to help you:

- › Reduce energy costs by controlling charging times and managing demand charges
- › Generate new revenue from your charging stations
- › Monitor and control your system with a powerful online dashboard
- › Provide authorised drivers an easy way to charge

## Why JuiceNet Enterprise ?

| CONTROL STATION ACCESS | BALANCE YOUR EV LOAD | SAVE ON CHARGING EXPENSES |
|---|---|---|
| Set charging times and allow authorised users to access charging | Expand your charging operations without expensive infrastructure upgrades | Cap overall electricity consumption and manage demand charges |

| GENERATE REVENUE | SEE SYSTEM HEALTH | MAKE CHARGING EASY |
|---|---|---|
| Collect payment through mobile app or create invoices from reports | A powerful dashboard and robust reporting let you monitor charger and driver activity | Simple app for drivers to control and monitor their charging |

## Administrator Features

**Charging Station Management**
- › Assign devices and settings to locations and sublocations

**Control Charging Time**
- › Set charging station hours of operation
- › Set separate availability schedules for weekdays and weekends

**Charger Access Level**
- › Grant charging station access to authorised users and manage access at location level

**Reports**
- › Daily and monthly consumption reports by user, charging station, location, company
- › Review active charging sessions
- › Run session history reports by station and user
- › Review real-time consumption for each location
- › Export reports in PDF, XLSX, CSV

**Pricing and Payments**
- › Set pricing by kWh, session, hour or any combination thereof
- › Payment collection in app
- › Generate usage report & export data for invoicing

**Administrator Dashboard Access**
- › Grant users access to specific locations and devices
- › Administrator access level control

**Reseller Dashboard and Whitelabeling**
- › Resellers can manage stations on behalf of their customers
- › Brand dashboard with any company logo and email
- › Create a unique company URL (e.g. https://company.juice.net) for each end customer

**Automated Load Balancing**
- › Limit maximum power load for each location
- › Monitor current load
- › Review maximum load per location and per day

**Troubleshooting Tools**
- › Review state of the charging station: status, temperature, voltage, kW, amperage
- › View logs and events for each charging station

## Driver Features
- › Start charging using mobile app
- › Review current session status
- › Review history and cost of sessions
- › Charging start and stop notifications
- › App available for iOS and Android
